A scenic view of the ocean at sunset or sunrise, seen through a glass railing on a stone-paved walkway. The sky is a gradient of orange and yellow, transitioning into a dark blue sea. The foreground is a paved area with irregular, light-colored stone tiles. The glass railing is visible in the middle ground, and the ocean extends to the horizon under a soft, glowing sky.

## Unique Design Ideas for a One-of-A-Kind Space

---

### Paver Designs & Accents

Visually appealing designs and accents can add interest and depth to your outdoor living area—delineating and defining your space or sections within it.

And depending on your personal desires, you may use complimentary or contrasting elements to make your space one-of-a-kind.

# Complementary

colors & textures

---

Use pavers of complementary colors and textures to create a coordinated, harmonious outdoor space. Lighter tones open up an area while darker ones make a space feel smaller and more intimate. Add depth to your space by blending pavers of similar tones. Pair pavers in the same collection—Natural, Classic and Transitional—for complementary textures that define outdoor sections yet offer a smooth transition from one area to another.

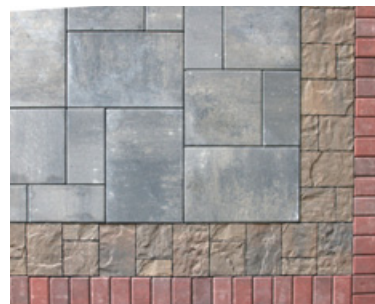

# Contrasting

colors & textures

---

Combine pavers of contrasting colors and textures to create an intricate and aesthetically appealing design. Define your space by using dark paver colors to line an area of light color, or vice versa. Add depth with contrasting textures. Use pavers from different collections—Natural, Classic and Transitional—to pair contrasting textures to accent your outdoor area and add visual appeal.
